DATE OF
INFO.SUPPLEMENT TO
REPORT NO.

THIS IS UNEVALUATED INFORMATION

25X1

In 1954, the GDR produced 418,957 tons of iron ore, 1,317,837 tons of raw iron, 29,875 tons of refined and electrolytic copper, 110,499 tons of pyrite (42 percent sulphur content), 2,654,461 tons of cement, and 2,648,202 tons of hard coal.

1. Comment. Some of these figures appear to be approximately in line with those recorded in which 1954 iron ore production is reported as 1,470,188 metric tons and the 1954 production of pyrites (S - content 42%) as 110,438 metric tons. However, the 1954 production of iron ore (ferrous-content) is reported, in thousand tons, to be 418,806 (or 418,806,000).
